DIRECTIONS TO SITE: Head north from Forks on Hwy 101. Turn left just beyond mp 193 (1.0 mi. north of Forks) onto the La Push Rd. Proceed west on La Push Rd about 3.1 miles. Turn right onto the Quillayute Rd. and continue west for 4.0 mi. Turn right onto Mina Smith Rd. (at Quillayute Cemetery) and proceed north about 0.8 mi. Turn left, after crossing the Colby Creek Bridge, onto the D-5000. Proceed west about 1.25 mi. and then turn right onto the D-5300. A game management gate at the road will likely be locked (a key is available from ITT Rayonier office). Proceed north on the 5300 about 1.2 miles then turn right (east) onto a spur road. Continue to the landing at the end of this spur. D-R3-06 is located due north of the landing.

FISH ACCESS AND CURRENT USE: The egress is good with a small eddy at the mouth. There is a 60 cm high debris jam about 50 m up the channel that is a passage problem at certain flows. No fish were observed.

FLOODING POTENTIAL: Low

LANDOWNER: Unknown at this time (possibly ITT Rayonier and others).

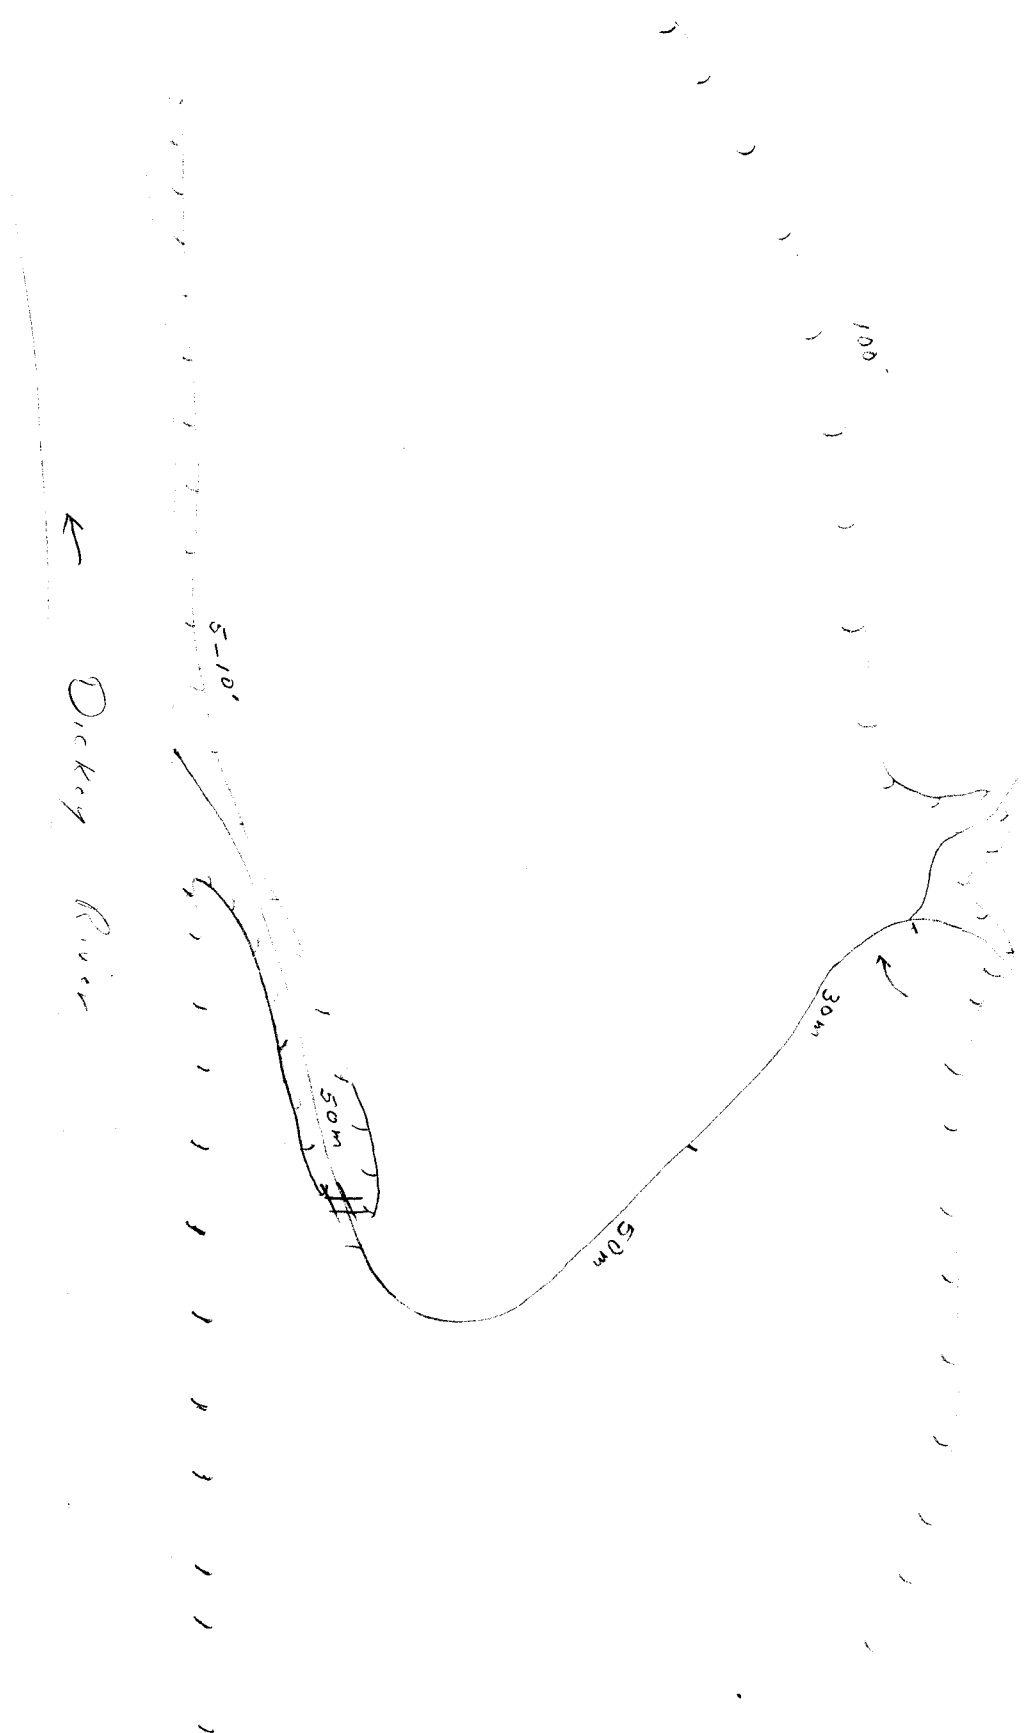

COMMENTS & RECOMMENDATIONS: D-R3-06 has limited long term rearing habitat and may currently be used for a temporary refuge area. The rearing area that is available is situated in small pools around LOD. This reach could be deepened or pooled using a plank control. Removal of the debris jam would also be helpful.
